Enhancements

- Migrated entire AWS Infrastructure stack from US East 2 to US East 1 using CloudFormation IAC to increase reliability and feature set.
- Created CloudWatch Alarms for all Amplify, Lambda, API Gateway, and HealthCheck objects
- Improved reliability of form data capture with durable storage at the API level to ensure delivery of form submissions.
- Migrated all sites from ImprovMX to AWS SES for email forwarding, including admin page.
- Merged Admin and Lead Generator apps
